

**Permission Form for Use of Databases for the Vision for Vitals (V4V)  
Challenge of ICCV 2021**

**A) TERMS**

“V4V” Database was developed in the group of Dr. Lijun Yin of the State University of New York at Binghamton, and Dr. Laszlo Jeni of Carnegie Mellon University. The data include 2D videos and corresponding physiology data per subject. The project was funded by the United States National Science Foundation for human affective behavior research.

“Database” refers to all the distributed images, models, and annotation data. The recipient of the Database must be a full-time faculty, researcher or employee of an organization (not a student) and must agree to the following terms:

1. The participants receive a non-exclusive, non-transferable license to use the Database for internal research purposes. You may not sell, rent, lease, sublicense, lend, time-share or transfer, in whole or in part, or provide third parties access to the Database.
2. The Database will be used for non-for-profit research only. Any use of the Database in the development of a commercial product is prohibited. For any commercial use of the Database, please contact Dr. Lijun Yin ([lijun@cs.binghamton.edu](mailto:lijun@cs.binghamton.edu)) for a commercial license.
3. If the Database is used, in whole or in part, for any publishable work, the following papers must be referenced:

Zheng Zhang, Jeff Girard, Yue Wu, Xing Zhang, Peng Liu, Umur Ciftci, Shaun Canavan, Michael Reale, Andy Horowitz, Huiyuan Yang, Jeff Cohn, Qiang Ji, and Lijun Yin, Multimodal Spontaneous Emotion Corpus for Human Behavior Analysis, IEEE International Conference on Computer Vision and Pattern Recognition (CVPR) 2016.

**B) STATEMENT**

I have read the above statement, and agreed all terms of use. I understand that the violation of the use will be pursued.
